Civil Engineering Public Company Limited and its subsidiaries Review report and interim financial information For the three-month period ended 31 March 2022 Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Civil Engineering Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of

Civil Engineering Public Company Limited and its subsidiaries as at 31 March 2022, the related

consolidated statements of comprehensive income, changes in shareholders' equity, and cash

flows for the three-month period then ended, as well as the condensed notes to the interim

consolidated financial statements. I have also reviewed the separate financial information of

Civil Engineering Public Company Limited for the same period (collectively "interim financial

information"). Management is responsible for the preparation and presentation of this interim

financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

My responsibility is to express a conclusion on this interim financial information based on

my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of

Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim

financial information consists of making inquiries, primarily of persons responsible for financial and

accounting matters, and applying analytical and other review procedures. A review is substantially

less in scope than an audit conducted in accordance with Thai Standards on Auditing and

consequently does not enable me to obtain assurance that I would become aware of all significant

matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that

the accompanying interim financial information is not prepared, in all material respects,

in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

Civil Engineering Public Company Limited and its subsidiaries

Notes to interim consolidated financial statements

For the three-month period ended 31 March 2022

1. General information

1.1 Basis for preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.2 Basis for consolidation

The interim consolidated financial statements include the financial statements of Civil Engineering Public Company Limited ("the Company") and its subsidiaries companies ("the subsidiaries") (collectively "the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2021, with change in shareholding structure of subsidiaries during the current period as described in Note 7 to interim financial statements.

1.3 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2021.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2022, do not have any significant impact on the Group's financial statements.

2. Related party transactions

During the period, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business. There were no significant changes in the transfer pricing policy of transactions with related parties during the current period.

Summaries significant business transactions with related parties as follows.
